SPIRAL-TRAINING AND SUPERIOR-PRUNING OF GRAPES.—There is a great difference of opinion among good grape-growers as to the best mode of training the grape. Much has been written to prove this system or that to be the best. It is not claimed that the spiral system is better than all others, but that it works well, and that it is a cheap mode of training the grape. Some, perhaps, do not understand what is meant by the term, and may not have seen this style of training practiced. It is really the spur system, for the full pruning of the vine is on that principle; and then the vine is trained around a single stake or post, just as a hop or bean vine runs around a pole.—Some of the advantages to be derived from this method are, that the vine is nearly self-supporting when so trained, needing only a good strong rope yarn tied about it near the top to secure it to the post; that the ground is easily kept free from weeds, and in good condition, by running the cultivator both ways, or four ways, between the vines, which cannot be done when a trellis is used; it is less work to tie up, to thin, and to gather the fruit, while, at the same time, the plant gets more sun and air.

It has been urged by one writer, of late, that the vine should be so trained that its branches will droop as they do from the top of a tree when they are allowed to run wild. Now, if this be desirable, the object is certainly gained by this spiral method of training; for after the vine has reached the top of the stake, say seven feet high, the branches then spread like an umbrella, dropping like the branches of a weeping willow.

The summer pruning of vines so planted is easily accomplished. After the laterals have made a growth of two or three feet, and the young fruit is about setting, or less set, then pinch in the ends of the laterals, or branches, one or two joints beyond the outermost bunch of fruit. If they start again, as they will be likely to, especially if they are strong growing sorts, pinch in again at the next joint, and so on.

The most rampant growers, such as Rodger's No. 15, will not bear such close pruning, and when so treated fail to give the best results; while, on the other hand, the slow-growing Delaware seems to do very well under such treatment, and even the long-jointed Concord succeeds very well.—There is one objection to this mode of training to single stakes or posts which should be mentioned, and that is, when the young succulent laterals have pushed out a foot or more in length, and before they have much substance, the wind is quite likely to blow some of them off, causing a loss of the fruit from that branch for the season. The same difficulty is experienced, to some extent, on a wire or wooden trellis, unless they are kept tied up, which is hardly possible in a large vineyard. From some years of experience with different methods of training, we are strongly inclined, for the reasons given, to prefer the spiral system, and can safely recommend it to others.—*American Journal of Horticul

FOR PRESIDENT,
ULYSSES S. GRANT.
FOR VICE PRESIDENT,
SCHUYLER COLFAX.

STRANGERS AND SUMMER VISITORS spending the season in Newport will find it to their advantage to consult the advertising columns of the *Daily News* before selecting their places of trade. They will find, carefully arranged under appropriate heads, the names and places of business of our leading merchants and artisans of all classes, and may thus be enabled to make, by comparison, more satisfactory arrangements than a limited acquaintance in Newport would otherwise allow.

The Issues.

The reconstruction policy of Congress has so far progressed in being carried into effect, that for the purposes of the presidential canvass, it may be regarded as a fact accomplished. The impeachment question is settled, so that the consideration of these subjects will also be out of place, as the decision of the canvass will not effect the result of either.

The object to be attained in the canvass is the pacification of the people, the complete restoration of industrial prosperity among the producing classes, and a faithful discharge of the national obligations.

The republican party believe that a more permanent peace will be established by giving prominence in the administration of the government to those who have struggled to preserve the country in its recent contests, and by excluding those who have borne arms and plotted against its existence, until they give some evidence of a change in their disposition towards the government. In other words, that the government had better be administered by its friends than by its enemies.

On the other hand the democracy believe that peace and good feeling will be most easily established by giving the control to those who have so recently plotted and toiled for the subversion and overthrow of the government and to their abettors who have stood by, and acquiesced in the rebellion.

The democratic party in open hostility to all of its traditions is in favor of flooding the country with an irredeemable paper money with which to wipe out the national debt, which will completely demoralize all of the business interests of the people and be a flagrant breach of the public faith, and disregard of the national honor.

True, that through the agency of a war forced upon the country by the Southern people, slavery was abolished; and the loyal people through whose agency this great end was accomplished, not believing that the freedmen, without the means of self-protection, could be safely left to be governed by their former masters, have striven to have extended to them equal, civil and political rights; but this measure of justice, so necessarily resulting from the abolition of slavery was involved in the reconstruction acts and may be regarded as already attained.

In the canvass we expect to hear much said about Butler, Forney, Logan, and perhaps about Stanton. All of these men may have rendered some service to the country; we think that Mr. Stanton has done much, but each of them, may have said, or done things for which the party is not responsible. And then it should be remembered that these men have been democrats, longer than they have been republicans.

Possibly, too, it may be said that Thad. Stevens has acted outside of the constitution. To all of these things, it may be replied that the majority of the democratic party went into the rebellion. They attempted to overthrow the government:—cost the nation 500,000 lives and $5,000,000,000 of treasure. The slight mistakes of extreme men, weigh little when compared to this greatest crime against Government which has been perpetrated in modern times.

United States Senator.

As the General Assembly of this State will be called upon next Tuesday to make choice of a United States Senator for the next six years, it is quite natural that there should be some discussion of candidates and principles. It would be impossible, in fact, to make the election without some such canvassing on the part of those who manage the affairs of State and give direction to matters of this kind. And yet up to within five days of the election, no newspaper in Rhode Island has broached the subject, or expressed a preference, so far as we have been able to discover for or against any candidate whatever. All that may have been said or done has been kept from the public and there is evidently a determination to accomplish the ends had in view in much the same manner as a machine is run at the will of the operator. Every one knows, notwithstanding the studied silence that it is the intention of "the managers" to reelect Governor Sprague. It is probable that there will be no serious opposition to his return, as he has given general satisfaction during the past term. But there are serious rumors afloat that Mr. Sprague is casting in his fortunes with the "Chase movement," whatever that may be, and is not to be relied upon for the support of Grant and Colfax in the coming campaign. There may be no truth in all this, but it seems incumbent upon him or his friends to give such information on the subject as shall leave no doubt in the minds of those who are expected to assist in his election. It is an important question and in case of any other candidate would be pressed from every point, and with a persistency that would take no denial.

We hear that Senator Sprague is expected in Providence this week and has been suggested as the presiding officer of a Grant and Colfax ratification meeting to be held in Providence. We are told also that his friends are not willing he should be put to this test, and rather than have the issue raised and the question settled even thus indirectly some of them are opposed to holding such a meeting at all. If this be correct it is certainly an indication that what is reported may have in it some foundation. In fact. Taken in connection with other circumstances which we will pass over today, but which may be referred to hereafter, we confess that it has an unsatisfactory appearance.

It is quite possible that Senator Sprague is misinterpreted by both his friends and opponents, but there is certainly ground for doubt as to his position. Under these circumstances would it not be well for him or some of his friends who can speak understandingly in the case, to give the desired information, and not leave the General Assembly to vote in the dark. There are, certainly, some men in that body that will cheerfully support him if he is fair and square on the Chicago platform both as to principles and candidates, who are not disposed to go it blind. In their behalf, we ask for information, and as in duty bound we shall not cease to ask until an answer is given or the election held.

Baptist Sunday School Convention.

JUNE 4th, 1868.

Yesterday, the Twenty-eighth Anniversary of the Rhode Island Baptist Sunday School Convention was held, with the Sunday School at Valley Falls. According to the constitution "the object of this Convention" is "to promote the prosperity of Sunday Schools connected with the Baptist Denomination in the State," but "*any* Sunday School in the State," of whatever denomination "may be connected with" it "by sending a letter with delegates, to the annual meeting."

After devotional exercises, a few words of welcome were spoken by the pastor elect of the Valley Falls Church, Rev. Mr. Jones. He was followed by Prof. J. L. Lincoln, the President of the Convention, in an address of some length, and the rest of the forenoon session was occupied in reading the letters and reports from the Sunday Schools. Forty-five Schools were heard from. The whole number of teachers is 953, and the whole number of scholars 7,497. The number of scholars baptized during the year is 239.

An essay by Samuel T. Mallory, of Central Falls, on "The Sunday School, its influence and utility" was read in the afternoon. This was followed by a free and general discussion, participated in by Rev. Mr. Kermott of Omaha, Rev. J. J. Peck, Rev. H. Lincoln, D. D., Rev. D. Benedict, D. D., and others.

Newport was represented at the Convention by over forty delegates, from the First, Second and Central Schools.

The Convention next year meets at Wakefield. GREGORY.

POLITICAL.—It is said that Senator Sprague of Rhode Island is likely to be one of the supporters of the third party movement in favor of Mr. Chase for the Presidency.

The New York World impartially gives sketches of Messrs Seymour, Hendricks, Pendleton, McClellan, Hancock, Chase, Farragut and English, as possible democratic candidates, and expresses a decided preference.

A bill for the admission of five of the late Rebel States, was reported by Mr Trumbull. It is substantially the same as passed by the House and will, in all probability, speedily bring the Carolinas, Mississippi, Alabama and Louisiana back into the Union.

The charter election in Norwich Conn. took place on Monday, and resulted in the success of the Republican ticket by an average majority of 120. The vote was 1,053 which is 264 over that of last year. The vote for Mayor was: Lorenzo Blackstone, Feb. 505; Theodore Heymond, Dem. 468. All the Aldermen and Councilmen are Republicans.

The bill making amendments to the National Currency act aiming at radical changes in the banking system of the country, was killed in the senate yesterday by an indefinate postponement. Mr. Sherman strenuously urged its consideration, but Mr. Cameron's views to the contrary prevailed—the vote being 21 to 17.

It is reported that there is really a majority in Congress in favor of early adjournment, only they do not think it wise to say so at present. The new tax bill will be proceeded with, and in due time a proposition will be submitted to take out a few prominent articles and push them through both Houses.

A correspondent of a N. Y. Paper is indignant because a butcher in Washington Market sold him a putrid beef steak, and afterwards met his remonstrances with profanity and abuse. The easy preventive of such annoyances is to smell your pound of steak before you buy it.

A CLUB HOUSE FOR LADIES.—The Boston *Journal* says a house on Beacon street, very eligibly located, is now in the hands of the workmen, who are making it suitable to the wants of the ladies who have occasion for a down town headquarters. It will meet the wants of a large number who reside in the suburbs, and it is possible that the ladies may establish a club of their own. Why not?

London despatches state that the grand jury have refused to indict ex-Governor Eyre of Jamaica. The royal commission on the revision of the British neutrality laws have reported some important changes. It is stated that the representatives of foreign powers at Athens have protested against the admission of representatives from the Grecian Chambers.

MR. STANBERY.—Mr. Stanbury's nomination was rejected upon the ground that he had refused to argue before the Supreme Court in favor of the constitutionality of the laws of Congress which the President held to be unconstitutional.

A majority of the Senate would not endorse Mr. Stanbery's course, as they hold, on the contrary, that it is as plainly the duty of the Attorney-General to assume the constitutionality of the laws enacted by Congress, and assist in their enforcement, as it is the duty of the President to assume their validity and to execute them.

About Home.

POSTPONED.—Sheriff Lake informs us that the adjourned Session of the Supreme Court within and for this county, which was to be holden on Monday next, the 8th instant, will be postponed on account of the meeting of the General Assembly, here on the 9th, as the Court will require some days. A despatch from Chief Justice Brayton this morning says that the time to which the extra session will be still continued will be ascertained on or before Monday next, due notice of which will be given. Jurors and other parties will govern themselves accordingly.

MISSING.—Our community has been considerably excited for the past few days over the disappearance of one of our citizens concerning whom foul play of some kind is suspected. Mr. W.B. Wilson went to New York on Thursday of last week on business with the intention of returning Friday evening. He transacted his business, and about the time of the departure of the boat, was on the wharf where he was seen by some of his acquaintances who like him were homeward bound. It cannot be ascertained that he went on board the steamer, and since that time nothing has been heard of his whereabouts, though every effort has been made to trace him. His Honor Mayor Atkinson telegraphed to the police department in New-York, and Postmaster Coggeshall directed Mr. Atkinson, his assistant, who was then in the city to remain and do what he could to ascertain the facts, but thus far all is in vain.

PERSONAL.—We were pleased to see Ex-Mayor Cranston in the streets yesterday.—Though perhaps in a little better health than at one time, he is still very feeble and suffers much pain.

CAPSIZED AND ALMOST DROWNED.—Yesterday a sail boat containing two boys, one of whom was the son of Rev. C. H. Malcom, was capsized near the French School ship *Jean Bart*, and both came near being drowned. The name of the other person we have not ascertained. They were taken from the water by a crew from the ship and carried on board where their clothes were dried and various kindnesses extended. The boat was bailed out and put to rights and towed ashore.

MAD DOG.—A mad dog was killed yesterday by W. G. Turner, which he had discovered and watched for some time until its condition was fully ascertained. It was a small animal found running at large in the vicinity of the children's home on School street. Hydrophobia seems more prevalent this year than usual, throughout the country, and as dogs thus affected are not very lovely pets it is well to take frequent notes of their habits.

PASSENGERS.—The steamboats carry great crowds of passengers each trip. From 1000 to 1500 at a time is no uncommon number at the present time.

May 30th, 1868.

DR C. O. VAN TASSEL.

With tolling bells, and booming guns;
And muffled drum-beat's throb,
With heavy step, and shrouded flags,
Each half drawn breath a sob;

The solemn Army marches through
The quiet, listening town;
To deck with memory's flowery stars,
The green turned up with brown.

The little mounds of dew wet grass;
The chiseled blocks of stone,—
Where soldiers rest, where heroes sleep,
Wrapped in the flag—alone!—

Ho! comrade with the single arm,
Give me a wreath of green
To hang upon this snowy slab,
The rain drops silvery sheen.

Upon its glossy laurel leaves
Are tears our Mother weeps—
Now some Immortelles for a crown
For here the General sleeps.

This is a very little mound,
He was so young to die,—
Give me some Rose buds and those sprigs
Of fragrant Rosemary.

Now brother with the shattered leg,
Hand me those Hyacinths blue,
To place upon this grassy hill,
For he was always true.

White, sunrise-flushed Arbutus buds,
Are just the very things,
To sweetly serve the drummer-boy,
He sleeps in life's young spring.

That Passion flower of glorious bloom
Like Him who died to save:
With these white Lilies, stainless, sweet,
Rest on the Chaplain's grave.

Those bright Verbena's perfect red,
These valley lilies white,
Those blue bells and forget-me-nots,
These Daisies starred with light.

Have gathered from the rainbow tints
Old Glory's stripes and gold—
Her Color Sergeant's grave shall bear
These fruits of wounds untold.

Some Lavender, his memory
Is fragrant, and a spray
Of that green Cassia, let us place
Upon this tomb to-day;
He was a Christian, and he loved
To teach his men to pray.

This man was old, full threescore years,
When he went forth to fight.
Bring me some Ivy's glossy leaves
And full bloom Roses white.

Some scarlet holly berries here,
And mistletoe's green spray
This soldier fell in the wild fight
We had on Christmas day.

A branch of that sweet Orange bloom
And one red flower—the tide
Of his young life poured out and left
A broken-hearted bride.

Scatter the flowers we bear, around
The white tents of the dead,
The night comes down, the day is done
The old Flag overhead—

Hangs silently and wearily,
The rain falls on the sod,
Our loved ones sleep, how well they died
For Freedom and for God.

MAY SUFFER rather than take nauseous medicines. All who suffer from coughs, colds, irritation of the bronchial tubes or tendency to consumption, will find in *Dr. Wister's Balsam of Wild Cherry* a remedy as agreeable to the palate as effectual in removing disease. The Balsam is a pleasant remedy; it is a safe remedy; it is a powerful remedy; it is a speedy remedy; it is a remedy that cures.

Nature is the Great Physician.

This is now admitted, by the medical profession, as a fundamental principle of healing science. It is wisely provided by the human economy that wherever anything is wrong in the physical system the natural forces of the body are brought to bear to expel the disease. The great aim, therefore, is to strengthen the natural powers. This has been kept in view by the skillful compounders of HOSTETTER'S STOMACH BITTERS, which operates to give fresh vitality to all the organs of the body. The effect of this medicine upon the stomach, the liver and the kidneys, is prompt and decisive. The patient, who is wise enough to quit dragging and try the BITTERS, soon feels as if he had taken a release of life, and as he continues the use of the article, he is overjoyed to find the streams of health coursing through his frame. It is prepared with great care, and its components parts are entirely vegetable. It is free from the objections so often urged against preparations of the kind. As a MEDICAL AGENT it has no equal, while its pleasing flavor and healthful effects have made it a general favorite. It is free from all properties calculated to impair the system, and its operations are at once mild, soothing and efficient. All who have used HOSTETTER'S STOMACH BITTERS attest its virtues and commend it to me.

Even those who are in the enjoyment of perfect health frequently have need to have recourse to tonics as preventive of disease. We are never too well armed against the assaults of "the ills that flesh is heir to." In health or sickness this tonic cannot be taken regularly without giving vitality and elasticity to the system.

SPECIAL NOTICES.

Wister's Balsam of Wild Cherry

For the cure of, *Coughs, Colds, Hoarseness, Asthma, Influenza, Croup, Whooping Cough, Bronchitis, Predisposition to Consumption, &c., &c.*

This great remedy is too well known and is performing too much good to make it necessary to go into an elaborate discussion of its merits. Suffice to say that it still maintains its supremacy in curing diseases of the most obstinate character, and that all who suffer from the above complaints, after having tested this remedy, will not have occasion to resort to other appliances to insure a perfect restoration to health.

From SAMUEL A. WALKER, Esq., of Boston,
The well-known Auctioneer.

To Seth W. Fowle.

My Dear Sir—Having experienced results of a satisfactory character from the use of Wister's Balsam of Wild Cherry, in cases of severe colds, during the past two years, I am induced to express the full faith I have in its renovating power.

I was first induced to try this medicine as an experiment, about two years ago, in connection with the strong recommendation of a friend, who was willing gone with Consumption, and whom relief from the use of it entitled me of its great value in cases of colds and decline, and most clearly demonstrating, to my mind, its great value as a tonic, that my friends a fair trial to insure a grateful demonstration from the public.

Your obedient servant,
SAMUEL A. WALKER.

CHICKERING & SONS PIANOFORTES.

THE subscribers take pleasure in informing the public that they have been appointed **Sole Agents for these Celebrated Instruments for the State of Rhode Island,** and they would invite special notice to their intention of offering for sale at their NEW WAREROOMS a larger and more complete stock of Grands, Uprights and Squares, made by this Celebrated Firm, than has previously been exhibited in this city.

The subscribers have been conscious of the extraordinary merits and sterling qualities of the CHICKERING PIANOS for many years. This has resulted from a large experience in the sale of Pianos, many of which were from the best makers in the country and a careful observation of the various points of excellence attained by each particular maker, together with the opportunities afforded from their close connection with the Musical World, of hearing the most unanimous opinions of the greatest artists in favor of the Chickering Piano, and finally, upon witnessing the last and crowning triumph at the recent Paris Exposition over all the most celebrated makers in the world. The peculiar points of superiority to be found in the **Chickering Pianos** have been so frequently and minutely detailed by the Press that we do not consider it necessary in the Card to continue farther upon them. We shall keep in connection with the above, a choice assortment of PIANOS from good and reliable makers at a lower price.

Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending.* Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. ELECTION RIOTS.

—o—

WASHINGTON, June 3, 1868.

The Boston *Journal's* special says the political excitement which has run so high while a few days over the Mayoralty election culminated last night in considerable rioting and bloodshed. In altercations with colored men three white men were killed outright, three drug stores were ransacked, and the contents of two restaurants were destroyed. A street car which refused to stop until a procession passed was completely demolished. Several cases of persons of both colors seriously injured are reported. All is quiet this morning, but an excited feeling pervades the community, and the entire police force is out on duty.

Another report says a good deal of excitement prevails among the citizens of Washington on account of the barbarous assassination of several white men last night by negroes.

Late at night three white men were going up Pennsylvania avenue, and happening to pass a negro, made some remarks which the latter replied to by calling the white men rebels.

One of the white men rushed after the negro who retreated a short distance and then suddenly turned and drew out a razor and cut one of his pursuers across the wrist severing an artery and producing death almost instantaneously. The negro retreated.

In another section of the city a soldier of the 12th Infantry was set upon and cut with a razor across the ribs, the wound being of such a fearful character that death shortly followed.

The house of a conservative Judge of election was entered and gutted by a negro mob, and but for the strategy of a policeman the office of the National Intelligencer would have been demolished.

The impression is general that every negro is armed with a razor, and that other fatal collisions are inevitable.

The Butler investigating committee is in session and has examined several witnesses this morning. Members of the committee assert that important testimony has been elicited during the past two days touching impeachment. They refuse, however to reveal it.

CONGRESS.

The Committee on Ways and Means this morning took up for consideration the new tariff bill as perfected by a sub-committee, and after an animated discussion the bill was laid on the table by five to four. This is equivalent to its defeat for this session, at least.

The House is engaged this afternoon discussing the Delano and Morgan contested election case. Mr. Dawes has made an elaborate speech against it, and the House has denied Morgan (Democrat) his seat.

The evidence of Collector Webster of Baltimore, before the Impeachment Managers, was to the effect that he had raised money in Baltimore to pay the President's counsel.

FROM CALIFORNIA.

SAN FRANCISCO, June 2.

The election held in Oregon yesterday resulted in a Democratic triumph. The Democratic Congressman was elected by 1000 majority. Portland city gives 21 Democratic majority, but the county of Multnomah, gives 300 Republican majority. The legislative candidates elected, and the county officers, are nearly all Democrats.

The news of the nomination of Grant and Colfax was received with much enthusiasm.

New gold diggings have been struck between Roque and Galica Creek. A battery has been ordered to Sitka from Portland for the steamship Active.

A dispatch from Gold Hill, Nevada, announces the election of the entire Republican ticket for local officers by from 40 to 60 majority.

A dispatch from Washington Territory reports that the late earthquake was felt at several points in that territory. The Mission Church at Tulsip was badly shaken.

Peerless Cooking Stove.

HEAR what the Boston Journal says of this super or article:

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed air-chamber, which heats the air as it passes down behind the fire pot and into the oven, enabling the oven to bake or roast perfectly and evenly, a great desideratum with a careful housewife; the perfect control which can be kept over the fire, and its cleanliness. This stove works equally well with coal or wood. These stoves are of different sizes, and are made plain or with an extension top, the latter being made with a large reservoir for hot water on the top and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine this "Peerless stove." Sole agent in Newport,

600 MILES
OF THE
UNION PACIFIC
RAILROAD

Are now finished and in operation. Sixty miles of track have been laid this spring, and the work along the whole line between the Atlantic and Pacific States is being pushed forward more rapidly than ever before. More than twenty thousand men are employed, and it is not impossible that the entire track, from Omaha to Sacramento, will be finished in 1869 instead of 1870. The means provided are ample, and all that energy, tact and money can do to secure the completion of this

GREAT NATIONAL WORK,

at the earliest possible day, will be done.

The UNION PACIFIC RAILROAD COMPANY receive:

I.—A Government Grant of the right of way, and all necessary timber and other materials found along the line of its operations.

II.—A Government Grant of 12,800 acres of land to the mile, taken in alternate sections on each side of the road. This is no absolute donation, and will be a source of large revenue in the future.

III.—A Government Grant of United States Thirty-year Bonds, amounting to from $16,000 to $48,000 per mile, according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mortgage as security and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company in transporting troops, mails, &c. The interest is now much more than paid in this way, besides securing a great saving in time and money to the Government.

IV.—A Government Grant of the right to issue its own **FIRST MORTGAGE BONDS,** to aid in building the road, to the same amount as the U. S. Bonds, issued for the same purpose, and *no more.* The Government Permits the Trustees for the First Mortgage Bondholders to deliver the Bonds to the Company only as the road is completed, and after it has been examined by United States Commissioners and pronounced to be in all respects a first class Railroad, laid with a heavy Trail, and completely supplied with depots, stations, turnouts, carshops, locomotives, cars, &c.

V.—A Capital Stock Subscription from the stockholders, of which *over Eight Million Dollars* have been paid in upon the work already done, and which will be increased as the wants of the Company require.

VI.—Net Cash Earnings on its Way Business that already amount to MORE THAN THE INTEREST on the First Mortgage Bonds. These earnings are no indication of the vast through traffic that must follow the opening of the line to the Pacific, but they certainly prove that

First Mortgage Bonds

upon such a property, costing nearly three times their amount,

Are Secure beyond any Contingency.

The Company have abundant means in their treasury, and make no appeal to the public to purchase their Bonds, as the daily subscriptions are entirely satisfactory; but they submit that, for entire security and liberal returns, there is certainly no better investment in the market.

The Union Pacific Bonds are for $1,000 each, and have coupons attached. They have thirty years to run, and bear annual interest, payable on the first days of January and July at the Company's Office in the City of New York, at the rate of six per cent. in gold. The Principal is payable in gold at maturity. At the present rate of gold, these Bonds pay an annual income on their cost of

NEARLY NINE PER CENT,,

AND IT IS BELIEVED THAT THEY MAY SOON BE AT A PREMIUM.

The Company reserve the right to advance the price to a rate above par at any time, and will not fill any orders or receive any subscriptions on which the money has not been actually paid at the Company's office before the time of such advance.

Parties subscribing will remit the par value of the bonds and the accrued interest in currency at the rate of six per cent. per annum from the date on which the last coupon was paid. Subscriptions will be received in Newport by HENRY BULL & CO.; NATIONAL EXCHANGE BANK, Newport; NEWPORT NATIONAL BANK; and in New York

At the Company's Office, No. 20 Nassau Street,

AND AT

John J. Cisco & Son, Bankers, No. 50 Wall Street,

And by the Company's advertised agents throughout the United States.

Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's office or to any of the advertised agents.

Would most respectfully solicit the attention of the

DRUG AND GROCERY TRADE

Throughout the country, to the

VERY HIGH AND RESPECTABLE TESTIMONY

THEY HERE SET FORTH.

They have in their possession a paper bearing the actual signatures of these leading Wholesale Druggists, besides the signatures of all the large Druggists in the principal cities in the New England States.

We, the undersigned, Wholesale Dealers in Drugs and Patent Medicines, &c., in Boston, would say in answer to an inquiry made by Messrs. C. A. RICHARDS & CO. that we believe the

"SONOMA WINE BITTERS"

made by them, to be the very best article of the kind that has ever been placed before the American public, and that it meets a positive want, inasmuch as there was no other well known Bitter made with PURE CALIFORNIA WINE until Messrs. C. A. RICHARDS & CO. placed their article upon the market.

The formula for manufacturing these Bitters has been explained and exhibited to us by Messrs. C. A. RICHARDS & CO., and it has elicited our cordial approval as a thoroughly scientific preparation. Although but a few months have passed since its first introduction, we already consider these Bitters a standard article in our business.

No. 21 Endicott Street, Boston, Mass.,

is so arranged that patients never see or hear each other. Recollect the ONLY entire unoccupied Office is No. 21, having no connection with the residence, consequently to family interruption, so that on no account can any person be taken upon the premises.

DR. DIX

boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he

Is the only regular graduate physician advertising in Boston,

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he feels it unnecessary to be recommended, and particularly to

Strangers and Travelers.

To avoid and escape Imposition of Foreign and Native Quacks, more numerous in Boston than other large cities.

DR. L. DIX

gently refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through a long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

be not robbed and duped by advertisements in being received by the lying boasts, over pretentious, false promises and professions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and treat it to their ruin. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, Low Grade, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines to your injury, who cannot expose or contradict them; or who, besides, to further their imposition, compound Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon Mercury, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specifics, Antidotes, &c., both relying upon its effects in curing a few in a thousand, it is trumpeted in various ways throughout the land; but, alas! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, just relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will prepare themselves, compounding, giving a majority to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and needlessly spend large amounts for experiments with quackery.

DR. L. DIX'S

charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.
